Objective

To work in a creative and challenging environment using the cutting-edge technologies where I can learn constantly and successfully deliver my best to the organization.

Summary

- Worked on technologies such as J2EE, J2SE, MySql, .Net and Java.
- Eager to learn new technologies and solve problems.
- Good team player with strong interpersonal skills.

Project Details

Project Title: Student leave Application – jsp & servlet

Role: Front-end and back-end Developer

Platform: HTML , CSS , JavaScript , Flowbite ,SQL,JSP & Servlets

Description: "Created an online student leave application system using JSP, Servlets, HTML, CSS, and JavaScript. This system allows students to request leave from their HOD online, replacing the manual process with an efficient, automated solution for submitting and managing leave requests."

Project Title: Book my Movie – jsp & servlet

Role: Front-end and back-end Developer

Platform: HTML , CSS , JavaScript , Flowbite ,SQL,JSP & Servlets

Description: "Developed an online movie ticket booking system for a theater using JSP, Servlets, HTML, CSS, and JavaScript. This system enables users to browse movies, select show times, and book tickets seamlessly. It includes features for viewing available seats, choosing preferred seats, and making secure online payments. Integrated Razorpay as the payment gateway to ensure secure and efficient transactions. The system also supports administrative functionalities for managing movie schedules, seat availability, and booking records, enhancing the overall efficiency and user experience compared to traditional booking methods

Skills
